WILDLIFE CONSERVATION AND BIODIVERSITY WORKSHOP PROGRAM REPORT

Date of the Workshop: 04-11-2019

Location: T. S. Paul Manipur Women's College

Program Coordinator: Yensenbam Bijayalaxmi Devi, Head & Assistant Professor, Dept. of Zoology

Executive Summary

A Journey into Wildlife Conservation and Biodiversity" workshop was successfully conducted on 4th November 2019, aimed at enlightening and engaging participants on the crucial subjects of wildlife conservation and biodiversity. The event drew a diverse group of 20 attendees, including students, educators, and community members passionate about wildlife and conservation efforts. Through a series of expert talks, interactive sessions, hands-on activities, and field observations, the workshop fostered a deep understanding of biodiversity's significance, threats to wildlife, and the collective action required to preserve our natural world.

Objectives Achieved

1. **Educational Outreach:** The workshop significantly raised awareness about biodiversity and the pivotal role of wildlife conservation in maintaining ecological balance.
2. **Community Engagement:** Engaged a broad spectrum of the community in conservation efforts, highlighting local and global threats to biodiversity and fostering a sense of responsibility and capability to contribute to conservation efforts.
3. **Skill Development:** Participants were equipped with practical conservation skills, including wildlife-friendly practices, and observational techniques during the biodiversity walk.
4. **Networking and Collaboration:** The event facilitated networking among conservation enthusiasts, creating a platform for future collaboration and community-driven conservation projects.

Program Highlights

- **Keynote Speech:** Delivered by Haobam Ngangbi Devi, Assistant Professor, Dept. of Zoology, the speech illuminated the intricate web of biodiversity and set a profound context for the day's activities.
- **Interactive Session on Threats to Wildlife:** This session, led by Dr. Bujaya Thongatabam, Assistant Professor, Dept. of Zoology was instrumental in discussing the anthropogenic impacts on wildlife, stimulating insightful discussions among participants.
- **Conservation in Action Workshop:** Participants actively engaged in hands-on conservation activities, which were both educational and inspiring.

Participant Feedback

Feedback collected from participants was overwhelmingly positive, with many expressing a newfound appreciation for wildlife conservation and a desire to engage in conservation activities. Key feedback highlights included:

- Appreciation for the breadth and depth of information presented.
- Enjoyment of the hands-on and field activities for their educational value and as means to experience conservation in action.
- Requests for more frequent and longer-duration workshops, indicating a strong interest in deeper engagement with conservation topics.

Conclusion

The "Guardians of the Wild" workshop has made a significant impact on participants' understanding and commitment to wildlife conservation and biodiversity. It has laid the groundwork for a community increasingly aware of and involved in conservation efforts. The enthusiasm and feedback from participants affirm the necessity and demand for continued education and engagement in conservation topics. Plans to organize follow-up events and maintain a digital forum for ongoing engagement are underway, ensuring the workshop's momentum translates into lasting conservation action.
